## Introduction

The Auctioneers and Valuers Association of Australia (AVAA) is committed to strengthening professionalism, integrity, and public confidence across the auction and valuation sectors. This *AVAA Professional Standard* forms part of a broader framework designed to support consistent practice, ethical conduct, and accountability across the diverse services provided by members.

Professional standards play an important role in defining expectations for those who hold themselves out as skilled practitioners. They establish clear principles for conduct, competence, and responsibility, helping practitioners, clients, and regulators understand the level of professionalism that should reasonably be expected in the marketplace.

The *AVAA Professional Standard 2 – Continuing professional development requirements members* forms an essential component of the professional obligations associated with the AVAA Certified Auctioneer (CAAU) and AVAA Certified Valuer (CVAU) credentials. It reflects the expectation that credential holders maintain current knowledge, professional competence, and awareness of evolving industry standards, technologies, and regulatory frameworks.

Through structured CPD, credential holders demonstrate an ongoing commitment to professional excellence and responsible practice. Regular participation in learning activities ensures that auctioneers and valuers remain informed about market developments, legal obligations, and emerging risks, supporting the delivery of accurate, ethical, and professionally robust services.

This standard has been developed through consultation with practitioners and informed by regulatory frameworks, industry experience, and evolving client and government expectations. It is intended to provide practical guidance while reinforcing the importance of transparency, diligence, and professional judgement in everyday practice.

Those holding CAU and CVAU credentials apply this *AVAA Professional Standard* to demonstrate a commitment to continuous improvement and professional accountability. In doing so, they contribute to a stronger and trusted sector where auctioneers and valuers are recognised not only for their expertise but also for the integrity and reliability of their work.
