Motor Vehicle Valuation Best Practice

Motor vehicle valuation plays an increasingly important role across insurance, finance, insolvency, fleet management and commercial transactions, with consumers and businesses seeking reliable advice regarding vehicle condition, and defensible market value outcomes. This webinar examines contemporary vehicle valuation best practice.

This AVAA Perspectives webinar is designed for valuation professionals seeking a working understanding of passenger and commercial vehicle valuation practice. You'll hear from experts on influences, recognised valuation methodologies, compliance risks and commercial considerations that are considered when delivering high-quality valuation reports.

What You'll Discuss At This Webinar —

- Australian passenger and commercial vehicle market conditions.
- Assessing condition, repairs, modifications and service history.
- PPSR, compliance, fraud and written-off vehicle considerations.
- Preparing professional valuation reports for commercial purposes.
- Emerging market and technology trends influencing vehicle values.

As vehicle markets continue evolving through changing consumer demand, electrification and broader economic pressures, this webinar examines recognised valuation approaches alongside practical realities influencing Australian motor vehicle valuation practice.

Presentations will be delivered by AVAA Certified Valuers (CVAU) and other recognised opinion leaders with practical experience across passenger and light commercial vehicles, drawing on Australian industry conditions. Their expertise will provide you with practical professional insight relevant to contemporary valuation assignments.

High petrol prices and a troubled economy means motor vehicle valuations are attracting significant commercial, insurance and legal attention. In this environment, this webinar supports practitioners holding the AVAA Certified Valuer (CVAU) credential while being of value to professionals considering applying for the CVAU credential, plus others with a professional interest in motor vehicle valuation.
